Overview

Panetti Photography is the portfolio and booking website of photographer Anett Palicskó (Nyírbátor).
A one-page static site: no server, opens in any browser, uploadable to any host.

The genres: maternity, portrait, wedding, family and child photography. The goal is an elegant showcase of the work and an easy way to get in touch. Fully bilingual (HU/EN), mobile-first responsive.

Philosophy: the photos are the stars — a quiet, elegant frame, with no unnecessary technology.

Goals & audience

Audience

Expecting mothers, families and couples looking for refined photography who want to see the photographer's style.

Goal

An elegant portfolio showcase and simple contact — turning a visitor into a booking.

Sections & content

SECTION	CONTENT
Hero	A large heading, an animated intro logo, mood.
About	The photographer's introduction and approach.
Gallery	A filterable image gallery by category, with a lightbox.
Packages	The photography genres and options.
Contact	A mailto: form and contact details.

Gallery

The gallery filters by category (maternity, portrait, wedding, family, child), and images can be viewed large in a lightbox.

Images live in the kepek/ folder, organised into category subfolders.

Contact

Contact happens through a `mailto:`-based form: the visitor fills the fields and their mail client opens with a pre-filled message. No backend, no database.

This is the simplest, operations-free solution for a portfolio site.

Architecture & tech

Client

Vanilla HTML/CSS/JS, a single page with a filterable gallery, lightbox and scroll-based animations.

No backend

Static files; contact via a mailto: link.

Google Fonts (Cormorant Garamond, Mulish); everything else local, no build step.

Bilingual & SEO

The site is fully bilingual: a HU/EN toggle switches all text, and the choice is remembered.

SEO: descriptive meta data and Open Graph cards for nice sharing; the live site is served on GitHub Pages.

Appearance & motion

An animated intro logo greets the visitor: it draws itself, then gently dissolves into the content. The gallery and sections appear on scroll.

All animation respects the `prefers-reduced-motion` setting.

Design system

An elegant, refined identity — a cream base, gold primary and burgundy accent, with classic serif typography.

COLOUR PALETTE

	Gold (primary)	#a98548
	Deep gold	#8a6a34
	Burgundy (accent)	#7a2233
	Cream (base)	#f7f2ea
	Ink	#2c2621
	Line	#e2d8c8

Heading Cormorant Garamond · serif	Body Mulish	Accent gold + burgundy
--	-----------------------	----------------------------------

Components: thin gold rules and frames, burgundy highlights, generous whitespace that lets the photos lead.

File structure

```
06_PanettiPhotography/  
├─ index.html  
├─ css/style.css  
├─ js/main.js  
├─ kepek/ (categorised images, logos, favicon)  
└─ dokumentumok/ - design doc (PDF)
```

Publishing

- Upload the folder to static hosting (GitHub Pages / Netlify / Cloudflare Pages).
- Check the contact e-mail address in the mailto: link.
- Connect a custom domain (optional).

Future work

- Add an online booker (e.g. the Slotli widget).
- Price and package details, an FAQ.
- Client testimonials and a blog.

Thanks to the framework-free structure, extensions can be added gradually.
